What a hackathon is

Online course

Virtual Hackathon

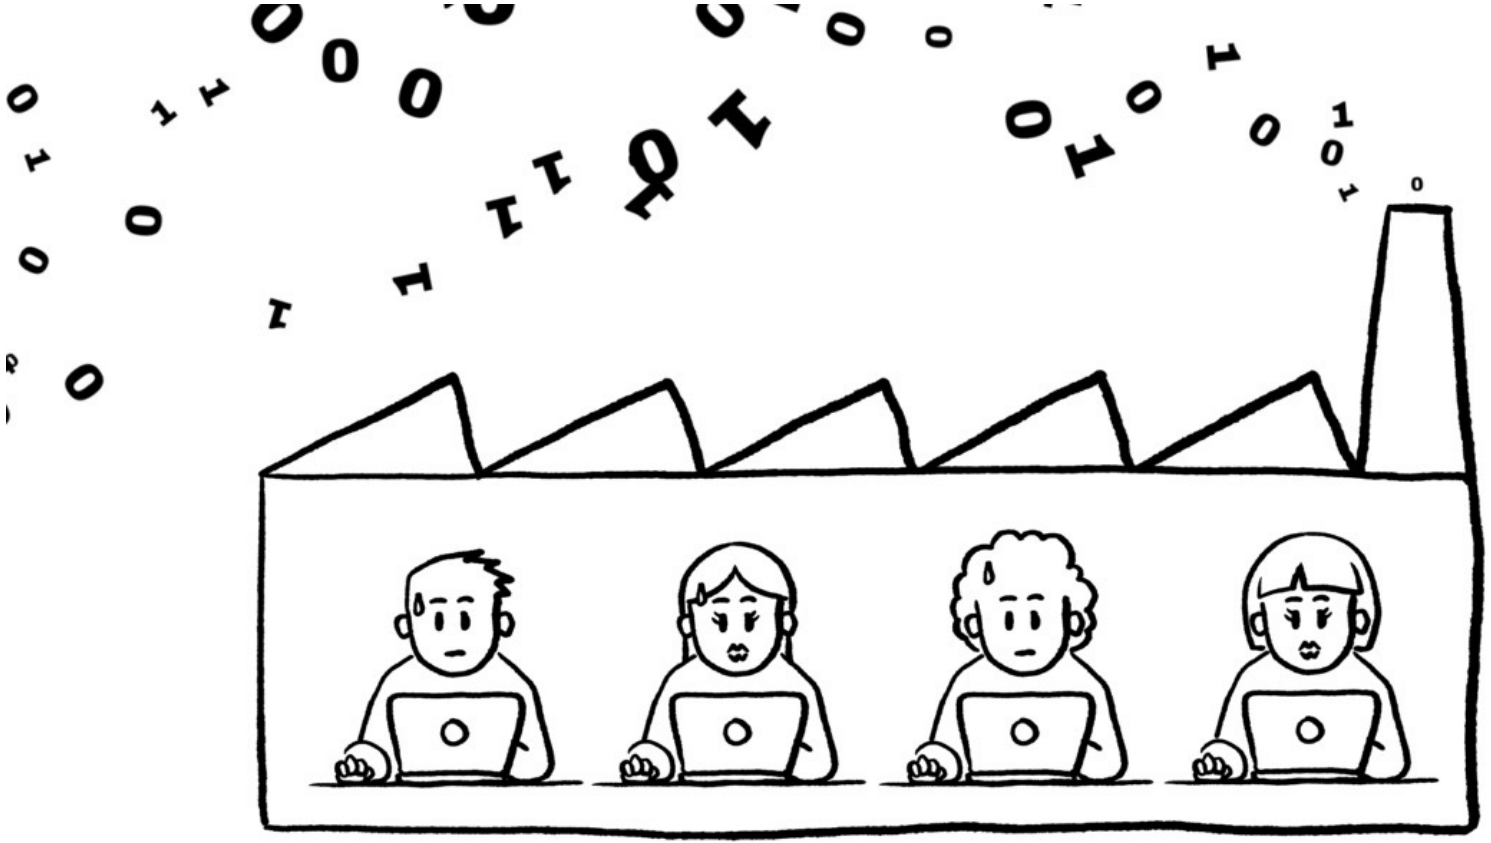
Cofinanciado por la Unión Europea

Index

1. Origin and concept
2. Process
3. Values and framework

1

Origin and concept



The concept

- Co-creative format
- Focused on problem-solving
- Creative and collaborative work
- Pre-defined specific challenge

The concept

Participating in a virtual hackathon will promote:

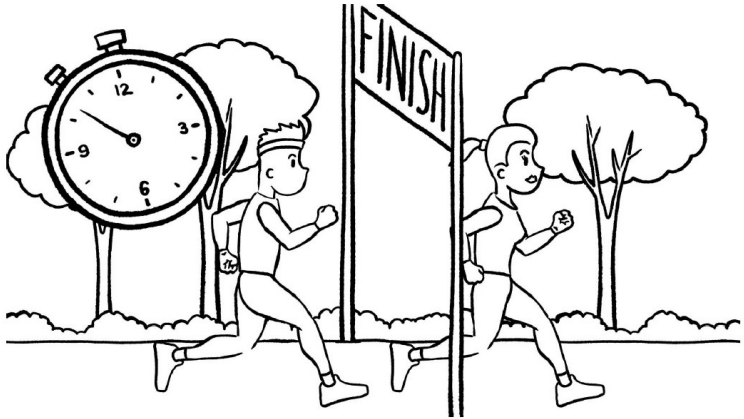
- New soft skills required by Green Deal and for a more sustainable economy in Europe
- Collaboration opportunities among students from different countries (in a virtual environment)
- The SDGs and a fair society for all

The concept

Hacker + Marathon

= Co-creative innovation sprint

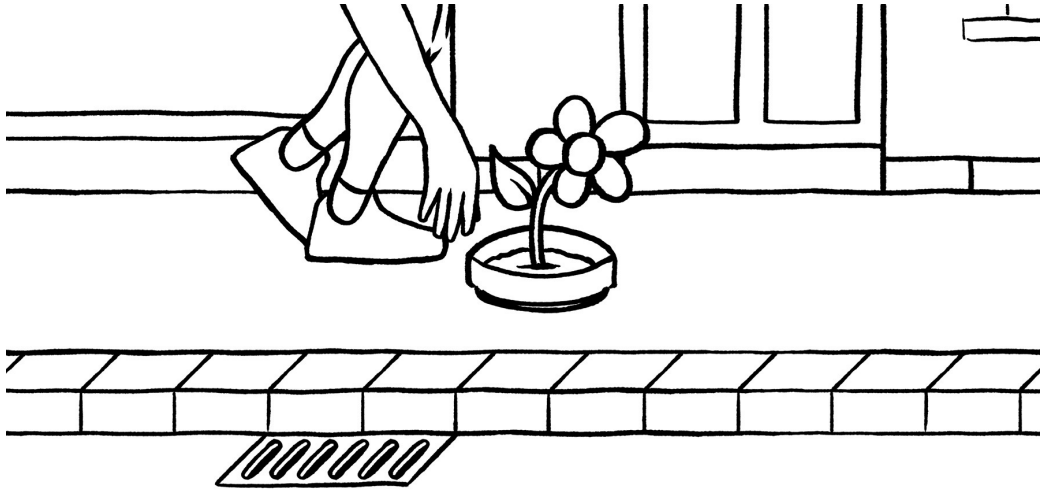
24-48h



The concept

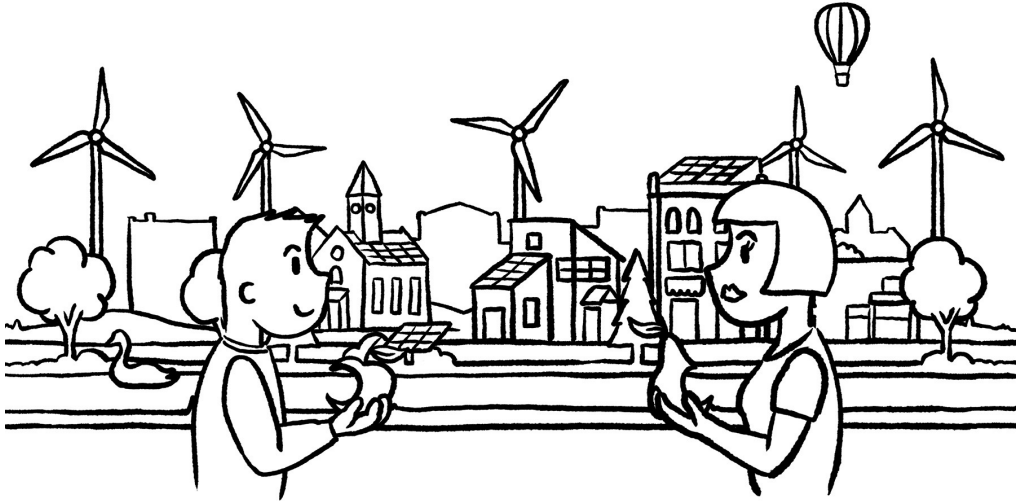
The meaning of „hacking“ in this context:

Search for unusual and inventive solutions that oppose well-established mindsets.



The concept

- Brings together different stakeholders
- Open, participatory and creative way to answer complex (societal) challenges



The concept
